

How long can you afford to go without a paycheck?

In today's economy, more and more people are living paycheck to paycheck. In fact, an estimated 57 percent of American workers said they only have enough money to cover their bills for six months or less.¹ Now take this statistic into consideration and ask yourself, "What happens if my paycheck goes away because of a disability?" If you're like most people, then you may not be prepared.

The numbers don't lie.
